

YOUR GLOBAL ALLIANZ

ABOUT US

Since our humble beginnings in 2005 our BS group of companies have acquired a wealth of experiences in serving various industries. With our current client base ranging from Aerospace, Marine, manufacturing, Oil & Gas, Petrochemical and Construction Industries.

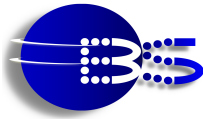

BS AQUATIERRA personalize your project to meet your specific needs. Our years of valuable experience will also assist you in developing a budget to assure the affordability of your project. We will be delighted to turn your imaginative ideas into innovative solutions. Our mission is to offer you a cost efficient solution to meet your project budget as well as your completion date. You are assured of achieving the greatest value in your project. We encourage openness and communication and empower our employees to offer solutions and act; to do the right thing and make the right decisions. We continually strive to give you the results you want, within the timeframe expected.

As our Company is poised to become the leader of our Industry in Singapore, clients can be assured of our exceptional expertise, the highest caliber of services. The BS AQUATIERRA work team comprises of talented, enthusiastic and confident professionals who take pride in the quality of their work and the timely delivery of those quality services; regardless of complexity or magnitude of the project. We earn the trust from our Clients every day by being dependable and delivering on our promises. We're focused, using keen judgment to problem solve in the safest manner possible and provide unmatched expertise and experience in every job we do.

YOUR GLOBAL ALLIANZ

OUR VALUE-ADDED SERVICES

BS AQUATIERRA is proud of our safety culture and relentless effort to maintain an injury-free environment. Our collaborative effort involves every member of our field team, from the top down, investing substantial hours in communication, training and education, arming our employees with the knowledge necessary to sustain our impressive record of safety without compromise. The elimination of potential hazards, prevention of accidents and achievement of safe working practices are daily goals observed by BS AQUATIERRA.

Having established our business, we have embarked ourselves in the middle of an ambitious expansion project which requires careful planning and meticulous execution. To upgrade and extend the existing infrastructure, BS AQUATIERRA have acquired more sophisticated Equipments and are currently recruiting more staff over and above the existing personnel to accommodate us to cover not only bigger projects but also to enable smooth operation of multiple projects at various locations.
